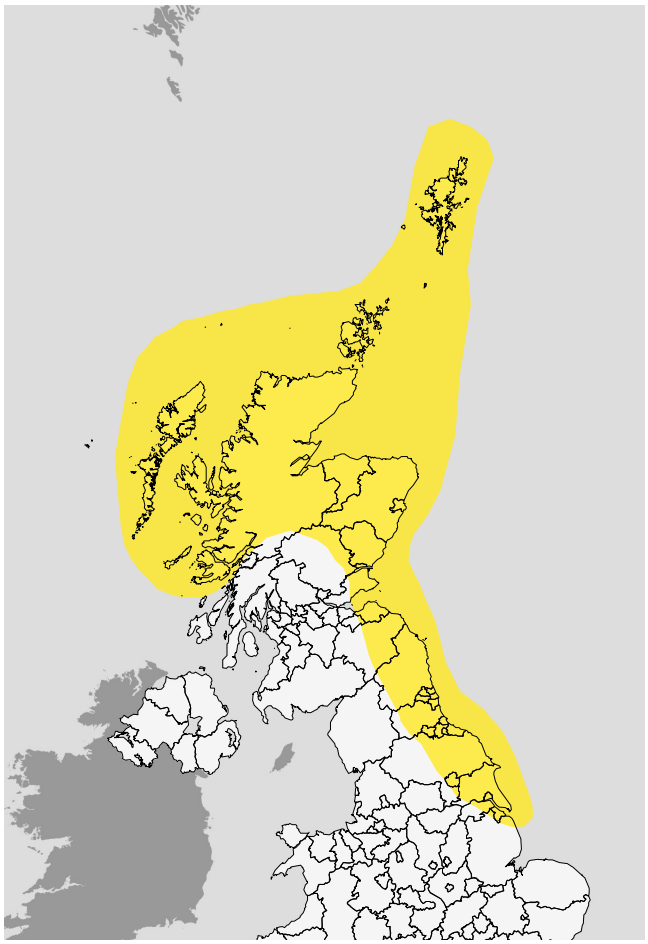
Yellow warning
Snow & Ice

Between
00:00 Tue 7 Mar 2023 and
23:59 Tue 7 Mar 2023



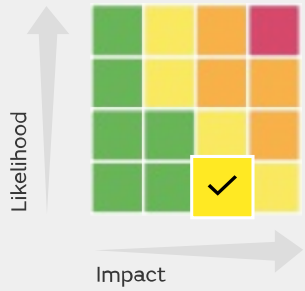
Frequent snow showers will continue, causing further disruption in places.

What to expect

- There is a small chance of travel delays on roads with some stranded vehicles and passengers, along with delayed or cancelled rail and air travel
- There is a slight chance that some rural communities could become cut off
- A small chance of injuries from slips and falls on icy surfaces
- There is a small chance that power cuts will occur and other services, such as mobile phone coverage, may be affected

Further details

Cold, blustery northerly winds will continue to drive frequent showers of snow and hail into these areas on Tuesday. The highest accumulations are likely again over the high ground of northern Scotland, where another 5-10 cm are possible by the end of the day. Accumulations at lower levels are most likely overnight where 2-5 cm could accumulate locally. Icy stretches are also a likelihood, especially during hours of darkness.



Very low likelihood of medium impacts
